

REMARKS

The Examiner's Amendment attached to the Notice of Allowability indicates that the corrected drawing page containing Figures 12a to 14 submitted on July 19, 2006 has not been entered. In subsequent telephone discussions between the undersigned and Examiner Rodriguez on September 21, 2006 and October 3, 2006, the Examiner indicated that this drawing page was rejected because it did not include the correction to Figure 12c requested in the Office Action dated March 14, 2006.

Upon review of the drawing page submitted on July 19, 2006, it is noted that reference numeral 5a was mistakenly removed from Figure 12b, rather than from Figure 12c. Accordingly, the corrected drawing page submitted herewith restores reference numeral 5a in Figure 12b and deletes reference numeral 5a from Figure 12c. No further amendments have been made.

It is submitted that the drawings are now in compliance with 37 CFR 1.121(d).

Favourable consideration of this application is respectfully requested.

Respectfully Submitted,

John D. Unsworth et al.
